RESEARCH INTERESTS

My research examines the developmental origins of adolescent antisocial behavior — how adversity such as disrupted caregiving, family risk, and socioeconomic disadvantage interacts with emotional, cognitive, and neurobiological processes to shape heterogeneous pathways into and out of antisocial behavior. This question grew out of my forensic assessment work with justice-involved and victimized adolescents, and I pursue it through psychological assessment, experimental methods, and computational text analysis. I aim to translate mechanistic insight into developmentally informed prevention for youth in contact with the legal system.

RESEARCH EXPERIENCE

Youth Antisocial Behavior	Cross-National Study of Youth Gangs (PIs: Dr. Shannon Reid & Dr. Sungil Han, UNC Charlotte) - Understanding Youth Gangs in Modern Society (2026-Present): Selected as a collaborator on a funded cross-national mixed-methods study (10+ countries) examining youth perceptions of gangs and gang-related victimization among school-enrolled and out-of-school youth; contributing to study preparation and design of the Korean arm, with data collection commencing 2027; findings to appear in an edited volume.
Developmental Vulnerability	Forensic Evaluations (Advisor: Dr. Eunkyung Jo) - Adolescent Victim Statement Analysis (2024): Contributed to a court-submitted expert opinion (Suwon District Court) applying Statement Validity Analysis (SVA/CBCA); analyzed how developmental vulnerabilities — borderline intellectual functioning, suggestibility, and disrupted attachment — shaped an adolescent victim's susceptibility to exploitation and the validity of her testimony. - Testimony of an Intellectually Disabled Victim (2024): Co-conducted a credibility assessment integrating cognitive-capacity evaluation with statement analysis; submitted to Seoul High Court. - Coercive Control in a Homicide Case (2023): Assessed coercive-control dynamics and testimonial validity in an expert opinion presented to Seoul High Court. - Psychological Autopsy (2023): Examined psychological, relational, and environmental antecedents of a suicide case.
Risk Assessment	Risk-Assessment Instrument Development (Advisor: Dr. Eunkyung Jo) - Stalking Risk-Assessment Framework (2023): Co-developed and validated two risk-assessment instruments (SRAT-I, SRAT-P) commissioned by Gwangju Metropolitan Police; coded 288 case files from 18 agencies, drawing on SAM, SARA-V3, and HCR-20; co-authored scoring manuals and the policy report. - Implicit Attitudes Toward Victims of Sexual Violence (2023): Coordinated an IAT study (N = 200); contributed to data analysis and manuscript development.
Computational Assessment	Computational Data Analysis & NLP Research (Advisor: Dr. Eunkyung Jo) - Computational Analysis of Psychological Manipulation (2023): Led a text-mining study of 5,000+ social-media posts on gaslighting discourse (Python); Best Poster Award. - NLP Corpus for Investigative Interviews (2022): Built a CBCA-coded training corpus (3,000+ statements) supporting AI-assisted interview analysis for victims of sexual violence.
Policy Research	National Policy Research & Consultation (PI: Dr. SeongCho Hong) - National Policy Study on Illegal Gambling (2024): Provided analyses through expert deliberations that informed national policy recommendations.

PROFESSIONAL EMPLOYMENT

Mar 2024 – Present	Seoul Gangnam / Seongdong / Songpa Police Station	Forensic Psychology Practitioner
	Conduct comprehensive forensic risk assessments of justice-involved adolescents (N = 110+) through a voluntary police diversion program, using semi-structured interviews and PAI-A testing to evaluate developmental, family, and offense-related factors; findings are submitted as formal reports that inform Family Court adjudications and prosecutorial disposition decisions.	
Jan 2025, Mar – May 2026	Korean Institute of Criminology and Justice (KICJ)	Assistant Researcher
	Developed AI training datasets using CBCA-based statement analysis; reviewed domestic and international literature on risk-assessment instruments and their predictive validity; synthesized expert data for the 2025 national survey on human trafficking and exploitation.	
Mar 2025 – Sep 2025	Korean Women’s Development Institute (KWDI)	Research Fellow
	Conducted statistical analyses (SPSS) for Korea's annual national Gender Impact Assessment report, producing data summaries on gender-equitable policy implementation across central government, regional/local governments, and provincial education offices.
